Quick Reference Sheet

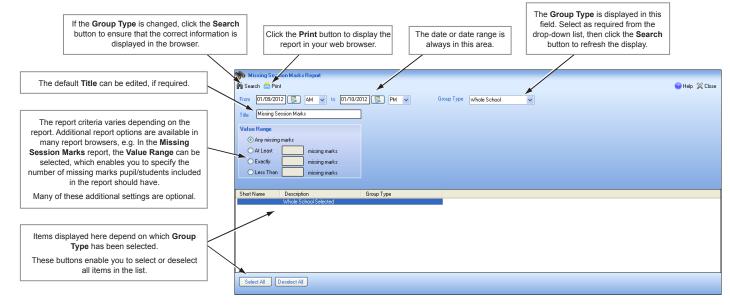

Attendance and Lesson Monitor

Producing Attendance or Lesson Monitor Reports

A wide variety of reports are available from the attendance area of SIMS, including a registration certificate, the official register and a group summary report. All attendance reports are accessed via Reports | Attendance (or Lesson Monitor) and are divided into the following groups: Individual Pupil (or Student) Reports, Whole Group Pupil (or Student) Reports, Selected Pupil (or Student) Reports, Group Reports and Module Reports. A report providing details about letters that have been created is also available via Reports | Attendance (or Lesson Monitor) | Letters.

The Report Process

1. Select Reports | Attendance (or Lesson Monitor) | <report group> | <report name>, e.g. Reports | Attendance | Selected Pupil Reports | Missing Session Marks Report to display the associated browser where the report criteria can be specified.

- 2. A default date or date range is displayed. This can be changed by entering the date(s) in the appropriate field(s) or by clicking the Calendar button(s) and selecting the required date(s).

SIMS

Calendar button

An option to specify **AM** or **PM** is available in some reports by selecting from the applicable drop-down lists.

3. A default **Group Type** is displayed, which can be changed by selecting from the drop-down list, if required.

If the Group Type is changed, you must click the Search button to rofroch the dical

The group list, located in the bottom section of the browser, reflects the Group Type selected.

- 4. A default Title is displayed but can be edited, if required.
- 5. Select/deselect any additional options that are available for the report.
 - Your custom settings are not retained for the future. The next time the report browser is opened, the default settings are displayed again.
- 6. Double-click the required group Name/Description, e.g. Whole School Selected, or highlight the group Name then click the Print button, to display the Run a Screen Based Report dialog.

|---|---|--|--|--|--|--|
| Term Dates and Closures Report | Numbers or Percentages? | | | | | |
| A predefined report detailing specific dates in the attendance year is also available. The report includes the start and end dates for each term and half-term, and any planned occasional closure dates within the term dates. | Some reports include an option enabling you to show the report data as either Numbers or Percentages. If you choose to show values as percentages, the data is displayed as a percentage of the possible total for that row. Although the data for some reports can only be produced as numbers, many of these reports also have a column showing percentage attendance. | | | | | |

Producing Attendance or Lesson Monitor Reports

Running a Screen Based Report

1. Click the Print button on the report browser to display the Run a Screen Based Report dialog. By default, the Use a predefined layout and Output to a web browser options are selected.

| 🟁 Run a Screen Based Report 🛛 💽 🔀 | | | | | | |
|---|---------------------------|--|--|--|--|--|
| Layout Options | | | | | | |
| Use a predefined layout | Missing Session Marks 🗸 🗸 | | | | | |
| 🚫 Supply your own layout | | | | | | |
| ◯ Output raw XML | | | | | | |
| Output Options | | | | | | |
| Output to a web browser | | | | | | |
| Output to a file | | | | | | |
| | | | | | | |
| | OK Cancel | | | | | |
| | | | | | | |

2. Specify the preferred layout option by selecting the applicable radio button.

Use a predefined layout

By default, the name of the report is displayed in this field and cannot be edited. This is different to other SIMS routines, e.g. the Display Marks routine, where a drop-down list may be available from which your preferred layout can be selected.

Supply your own layout

This option is available for schools that prefer a report layout that is different to the default layout available in SIMS. Before selecting this option, an XSL (eXtensible Stylesheet Language) file, recommended for the production of a printed output from XML, must have been created. Enter the location of the XSL file in the associated field.

| Layout Options | |
|--|--------------------------|
| 🔘 Use a predefined layout | |
| Supply your own layout | X:\Own_Layout_Report.XSL |
| ◯ Output raw XML | |

Alternatively, click the **Browser** button to display the **Select a layout** file dialog. Navigate to, then highlight the layout file and click the Open button to return to the Run a Screen Based Report dialog.

Output raw XML

This option outputs data that is stored in the SIMS database as raw XML data. This can then be imported into another application, e.g. Microsoft® Excel, and formatted to your individual school's requirements.

3. Specify the preferred output option by selecting the applicable radio button.

Output to a web browser

The default option produces a report in HTML format and displays it in your default web browser.

Output to a file

This option produces a report in XML format to the location specified. Enter the location where the .XML file should be saved.

| Output Options | |
|--------------------------------------|--------------------------|
| Output to a web browser | |
| Output to a file | X:\Own_Layout_Report.XML |

Alternatively, click the **Browser** button to display the **Save As** dialog. Navigate to the required location and enter a File name. Click the Save button to return to the Run a Screen Based Report dialog.

| 4. | Click the | οк | button | to | display | ' the | report | in | your w | veb | browser. |
|----|-----------|----|--------|----|---------|-------|--------|----|--------|-----|----------|
|----|-----------|----|--------|----|---------|-------|--------|----|--------|-----|----------|

Selecting a Group Type

Many attendance reports provide the option to specify the Group Type. A default group type, based on the most typically used group for that report, is always displayed. However, the option can be changed by selecting from the Group Type drop-down list. For example, if Reg Group is selected, a list of registration groups is displayed in the browser, as shown in the following graphic.

| Missing Session Marks Report | |
|---|---|
| M Search 🚍 Print | 😔 Help 💢 Close |
| Fam (91.094.0012 (5) 444 (c) to (94.194.00 Take Mining Session Maks Value Range O Any mining maks O Al Leat mining maks C Less Than mining maks | Conce Type Par Pa |
| Short Name Description | |
| ELM ELM PINE PINE ASH ASH DAK OAK 2BE 2BE 2GH 2GH 3TO 3TO | |
| 170 370 308 308 463 465 45L 45L 58B 58B 501 501 Select AI Deselect AI | |

IMPORTANT NOTE: If the Group Type is changed, you must click the Search button to refresh the display.

The following options are available:

Whole School - Whole School Selected is displayed in the Description column in the browser. When the report is run, data is returned for the whole school.

Year Group - The Short Name and Description of each year group are displayed in the browser. When the report is run, data is returned for the selected year group(s).

Reg Group - The Short Name and Description of each registration group are displayed in the browser. When the report is run, data is returned for the selected registration group(s).

Academic Class - The national curriculum year, Class Name, Class Description, Main Teacher, Subject of each academic class, Year Group and **NC Year** are displayed in the browser. When the report is run, data is returned for the selected academic class(es).

House - The Short Name and Description of each house are displayed in the browser. When the report is run, data is returned for the selected House(s).

User-defined group - A Short Name and Description of groups created via Focus | Groups | User Defined Groups are displayed in the browser. When the report is run, data is returned for the selected user-defined group(s).

Individual Students - The Name, Year Group, Reg Group, House, Gender and Admission Number of each on-roll pupil/student are displayed in the browser. When the report is run, data is returned for the selected pupil/student(s).

My Groups - The Short Name, Description and Group Type of any registration group, year group or academic class to which the user has been assigned are displayed in the browser. Any user-defined groups for which the user is a Supervisor are also displayed. When the report is run, data is returned for the selected group(s).
